# GUIDELINES IN THE ESTABLISHMENT OF AGENCY STRATEGIC PERFORMANCE MANAGEMENT SYSTEM (SPMS)

Part 1: The SPMS

### I. Background

The Civil Service Commission, as the central human resource management agency of the Philippine bureaucracy is constitutionally mandated to adopt measures to promote morale, efficiency, integrity, responsiveness and courtesy in the civil service. It is likewise tasked to institutionalize a management climate conducive to public accountability.

Among the mandatory human resource systems under the Revised Administrative Code of 1987 is the Performance Evaluation System which shall be administered in accordance with rules and regulations and standards promulgated by the Commission. Such performance evaluation system shall be administered to continually foster the improvement of individual employee efficiency and organizational effectiveness.

Through the years, the CSC has implemented several performance evaluation/appraisal systems. These systems, however, focus only on individual appraisals which are pre-requisites for promotion and other personnel actions including separation and performance based incentives. The link between appraisals and personnel action and incentives and the lack of a parallel system to enable validation/comparison between organizational effectiveness and employee performance resulted to low system integrity due to its unreliability and subjectivity.

To address the gaps and weaknesses found in previous performance evaluation systems, the CSC pilot tested the Strategic Performance Management System or the SPMS. The SPMS gives emphasis to the strategic alignment of the CSC's thrusts with the day-to-day operations of the CSC units. The SPMS focuses on measures of performance results that are reviewable over the period of the implementation of the CSC Road Map vis-à-vis targeted milestones and provides a scientific and verifiable basis in assessing organizational performance and the collective performance of individuals within the organization.

The Strategic Performance Management System (SPMS) strengthened the culture of performance and accountability in the CSC.

## II. The SPMS Concept

The SPMS is focused on linking individual performance vis-à-vis the agency's organizational vision, mission and strategic goals. It is envisioned as a technology composed of strategies, methods and tools for ensuring fulfilment of the functions of the offices and its personnel as well as for assessing the accomplishments.<sup>1</sup>

It is a mechanism that ensures that the employee achieves the objectives set by the organization and the organization, on the other hand, achieves the objectives that it has set itself in its strategic plan.

<sup>&</sup>lt;sup>1</sup> "The PMS-OPES: Re-inventing the performance management system of the bureaucracy", Annex A of CSC Resolution No. 1100224

Performance management system is the heart of the human resource system because information produced from it is useful in human resource planning, management and decision making processes.

The SPMS follows the four-stage PMS cycle: performance planning and commitment, performance monitoring and coaching, performance review and evaluation, performance rewarding and development planning.

To complement and support the SPMS, the following enabling mechanisms must be present, operational and maintained:

- A Recruitment System that identifies competencies and other attributes required for particular jobs or functional groups;
- An adequate Rewards and Incentives System;
- Mentoring and coaching program;
- An Information Communication Technology (ICT) that supports project documentation, knowledge management, monitoring and evaluation;
- Change management program; and
- Policy review and formulation.

### III. General Objectives

The SPMS shall be prepared and administered to:

- a. Concretize the linkage of organizational performance with the Philippine Development Plan, the Agency Strategic Plan, and the Organizational Performance Indicator Framework;
- Ensure organizational effectiveness and improvement of individual employee efficiency by cascading institutional accountabilities to the various levels of the organization anchored on the establishment of rational and factual basis for performance targets and measures; and
- c. Link performance management with other HR systems and ensure adherence to the principle of performance-based tenure and incentive system.

#### IV. BASIC ELEMENTS

The SPMS shall include the following basic elements:

- a. Goal Aligned to Agency Mandate and Organizational Priorities. Performance goals and measurement are aligned to the national development plans, agency mandate/vision/mission and strategic priorities and/or organizational performance indicator framework. Standards are predetermined to ensure efficient use and management of inputs and work processes. These standards are integrated into the success indicators as organizational objectives are cascaded down to operational level.
- b. Outputs/Outcomes-based. The system puts premium on major final outputs that contributes to the realization of organizational mandate, mission/vision, strategic priorities, outputs and outcomes.
- c. Team-approach to performance management. Accountabilities and individual roles in the achievement of organizational goals are clearly defined to give way to collective goal setting and performance rating. Individual's work plan or commitment and rating form is linked to the division/unit/office

work plan or commitment and rating form to establish clear linkage between organizational performance and personnel performance.

- d. **User-friendly**. The forms used for both the organizational and individual performance are similar and easy to accomplish. The organizational and individual major final outputs and success indicators are aligned to facilitate cascading of organizational goals to the individual staff members and the harmonization of organizational and individual performance ratings.
- e. Information System that supports Monitoring and Evaluation. Monitoring and Evaluation mechanisms and Information System are vital component of the SPMS in order to facilitate linkage between organizational and employee performance. The M&E and Information System will ensure generation of timely, accurate, and reliable information for both performance monitoring/tracking, accomplishment reporting, program improvement and policy decision-making.
- f. Communication Plan. A program to orient agency officials and employees on the new and revised policies on SPMS shall be implemented. This is to promote awareness and interest on the system, generate employees' appreciation for the agency SPMS as a management tool for performance planning, control and improvement, and guarantee employees' internalization of their role as partners of management and co-employees in meeting organizational performance goals.

#### g) Individual Employees

## Part 2: The SPMS Process

## I. The SPMS Cycle

The SPMS shall follow the same **four-stage PMS cycle** that underscores the importance of performance management.

#### Stage 1: Performance Planning and Commitment

This is done at the start of the performance period where Heads of Offices meet with the supervisors and staff and agree on the outputs that should be accomplished based on the goals/objectives of the organization.

During this stage, **success indicators** are determined. Success indicators are performance level yardsticks consisting of **performance measures and performance targets**. This shall serve as bases in the office and individual employee's preparation of their performance contract and rating form.

**Performance measures** (Annex C) need not be many. Only those that contribute to or support the outcomes that the Agency aims to achieve shall be included in the office performance contract, i.e., measures that are relevant to Agency's core functions and strategic priorities. The performance measures must be continuously refined and reviewed.

Performance measures shall include any one, combination of, or all of the following general categories, whichever is applicable:

| Category              | Definition   |
|-----------------------|--|
| Effectiveness/Quality | The extent to which actual performance compares with targeted performance.  The degree to which objectives are achieved and the extent to which targeted problems are solved.  In management, effectiveness relates to getting the right things done.                        |
| Efficiency            | The extent to which time or resources is used for the intended task or purpose. Measures whether targets are accomplished with a minimum amount or quantity of waste, expense, or unnecessary effort.  |
| Timeliness            | Measures whether the deliverable was done on time based on the requirements of the law and/or clients/stakeholders.  Time-related performance indicators evaluate such things as project completion deadlines, time management skills and other time-sensitive expectations. |

Heads of agencies shall cause the determination of their "agency target setting period", a period within which the office and employees' targets are set and discussed by the raters and the ratees, reviewed and concurred by the head of the department or office and submitted to the PMT.

The Agency Road Map, Agency Strategic Plan, Annual Investment Plan, etc. shall be the basis of the targets of Offices. Aside from the Office commitments explicitly identified under each Strategic Priority in the Road Map, **major final outputs**<sup>4</sup> that contribute to the attainment of organizational mission/vision which form part of the **core functions**<sup>5</sup> of the Office shall be indicated as performance targets.

The targets shall take into account any combination of, or all of the following:

- Historical data. The data shall consider past performance.
- Benchmarking. This involves identifying and comparing the best agencies or institutions or units within the agency with similar functions or processes. Benchmarking may also involve recognizing existing standards based on provisions or requirements of the law.
- Client demand. This involves a bottom-up approach where the Office sets targets based on the needs of its clients. The Office may consult with stakeholders and review the feedback on its services.
- OPES Reference Table list of major final outputs with definition and corresponding OPES points<sup>6</sup>
- Top Management instruction. The Head of Agency may set targets and give special assignments.
- Future trend. Targets may be based from the results of the comparative analysis
  of the <u>actual</u> performance of the Office with its <u>potential</u> performance.

In setting work targets, the Office shall likewise indicate the detailed budget requirements per expense account to help the agency head in ensuring a strategy driven budget allocation and in measuring cost efficiency. The Office shall also identify specific division/unit/group/individuals as primarily accountable for producing a particular target output per program/project/activity. These targets, performance measures, budget and responsibility centers are summarized in the Office Performance Commitment and Review Form (OPCR) (Annex A).

The approved Office Performance Commitment and Review Form shall serve as basis for individual performance targets and measures to be prepared in the Individual Employee's Performance Commitment and Review Form (IPCR) (Annex B).

Unless the work output of a particular duty has been assigned pre-set standards by management, its standards shall be agreed upon by the supervisors and the ratees.

6

<sup>&</sup>lt;sup>3</sup> Before the start of the performance period.

<sup>&</sup>lt;sup>4</sup> MFOs are goods and services that a department/agency is mandated to deliver to external clients through the im plementation of programs, activities and projects (per DBM published *Organizational Indicator Framework (OPIF) Book of Outputs for 2011*).

Core functions are those performed by the Office which are inherent in its mandates.
 OPES points refers to the time within which an output will be produced by an average performer.

Individual employees' performance standards shall not be lower than the agency's standards in its approved Office Performance Commitment and Review form.

#### Stage 2: Performance Monitoring and Coaching

During the performance monitoring and coaching phase, the performance of the Offices and every individual shall be regularly monitored at various levels: i.e., the Head of Agency, Planning Office, Head of Office, Division Head and individual, on a regular basis.

Monitoring and evaluation mechanisms should be in place to ensure that timely and appropriate steps can be taken to keep a program on track and to ensure that its objectives or goals are met in the most effective manner (Annex H, I and J). Also a very vital tool of management at this stage is an information system that will support data management to produce timely, accurate and reliable information for program tracking and performance monitoring/reporting.

Supervisors and coaches play a critical role at this stage. Their focus is on the critical function of managers and supervisors as coaches and mentors in order to provide an enabling environment/intervention to improve team performance; and manage and develop individual potentials.

# Stage 3: Performance Review and Evaluation (Office Performance and Individual Employee's Performance)

This phase aims to assess both Office and individual employee's performance level based on performance targets and measures as approved in the office and individual performance commitment contracts.

The results of assessment of Office and individual performance shall be impartial owing to scientific and verifiable basis for target setting and evaluation.

#### Office Performance Assessment

The Planning Office or any responsible unit in the agency shall consolidate, review, validate and evaluate the initial performance assessment of the Heads of Offices based on reported Office accomplishments against the success indicators, and the allotted budget against the actual expenses. The result of the assessment shall be submitted to the PMT for calibration and recommendation to the Head of Agency. The Head of Agency shall determine the final rating of offices/units.

An agency performance review conference shall be conducted annually by the Planning Office for the purpose of discussing the Office assessment with concerned Heads of Offices. This shall include participation of the Financial Office as regards budget utilization. To ensure complete and comprehensive performance review, all Offices shall submit a quarterly accomplishment report to the Planning Office based on the SPMS calendar<sup>7</sup> (Annex D).

6

<sup>&</sup>lt;sup>7</sup> The timetable for the preparation, review and approval of performance targets, standards, and ratings.

Any issue/ appeal/protest on the Office assessment shall be articulated by the concerned head of office and decided by the agency head during this conference, hence the final rating shall no longer be appealable/contestable after the conference.

The Planning Office shall provide each Office with the final Office Assessment to serve as basis of offices in the assessment of individual staff members.

### Performance Assessment for Individual Employees

The immediate supervisor shall assess individual employee performance based on the commitments made at the beginning of the rating period. The performance rating shall be based solely on records of accomplishment; hence, there is no need for self rating.

The SPMS puts premium on **major final outputs** towards realization of organizational mission/vision. Hence, rating for planned and/or intervening tasks shall always be supported by reports, documents or any outputs as proofs of actual performance. In the absence of said bases or proofs, a particular task shall not be rated and shall be disregarded.

The supervisor shall indicate qualitative comments, observations and recommendations in the individual employee's performance commitment and review form to include competency assessment<sup>8</sup> and critical incidents<sup>9</sup> which shall be used for human resource development purposes such as promotion and other interventions.

Employee's assessment shall be discussed by the supervisor with the concerned ratee prior to the submission of the individual employee's performance commitment and review form to the Head of Office.

The Head of Office shall determine the final assessment of performance level of the individual employees in his/her Office based on proof of performance. The final assessment shall correspond to the adjectival description of Outstanding, Very Satisfactory, Satisfactory, Unsatisfactory or Poor.

The Head of Office may adopt appropriate mechanism to assist him/her distinguish performance level of individuals, such as but not limited to peer ranking and client feedback.

The **average** of all individual performance assessments shall **not** go higher than the collective performance assessment of the Office.

The Head of Office shall ensure that the employee is notified of his/her final performance assessment and the Summary List of Individual Ratings (Annex E) with

Record of events, happenings or actual information affecting the overall accomplishments of the employee during the particular rating period.

<sup>8</sup> Competencies are observable, measurable and vital behavioral skills, knowledge and personal attributes that are translations or organizational capabilities deemed essential for success. Competencies shall be identified for a particular position or job family.

the attached IPCRs are submitted to the HRM Office/Personnel Office within the prescribed period.

#### Stage 4: Performance Rewarding and Development Planning

Part of the individual employee's evaluation is the competency assessment vis-à-vis the competency requirements of the job. The result of the assessment shall be discussed by the Heads of Office and supervisors with the individual employee at the end of each rating period. The discussion shall focus on the strengths, competency-related performance gaps and the opportunities to address these gaps, career paths and alternatives.

The result of the competency assessment shall be treated independently of the performance rating of the employee.

Appropriate developmental interventions shall be made available by the Head of Office and supervisors in coordination with the HRM Office/Personnel Office.

A professional development plan (Annex K) to improve or correct performance of employees with Unsatisfactory and Poor performance ratings must be outlined, including timelines, and monitored to measure progress.

The results of the performance evaluation/assessment shall serve as inputs to the:

- a. Heads of Offices in identifying and providing the kinds of interventions needed, based on the developmental needs identified;
- Agency HRM Office/Personnel Office in consolidating and coordinating developmental interventions that will form part of the HR Plan and the basis for rewards and incentives;
- PMT in identifying potential PRAISE Awards nominees for various awards categories; and,
- d. PRAISE Committee in determining top performers of the Agency who qualify for awards and incentives.

## II. Rating Period

Performance evaluation shall be done semi-annually. However, if there is a need for a shorter or longer period, the minimum appraisal period is at least ninety (90) calendar days or three (3) months while the maximum is not longer than one (1) calendar year.

Various rating scales may be used for specific sets of measures. However, in general, there shall be five-point rating scale (1 to 5), 5 being the highest and 1, the lowest.

#### SPMS RATING SCALE

|           | Rating            | Possintian  |
|-----------|-------------------|---|
| Numerical | Adjectival        | Description   |

Employees at this performance level should have demonstrated exceptional job mastery in all major areas of responsibility. Employee achievement and contributions to the organization are of marked excellence. |
| 4         | Very Satisfactory | Performance exceeded expectations. All goals, objectives and targets were achieved above the established standards.   |
| 3         | Satisfactory      | Performance met expectations in terms of quality of work, efficiency and timeliness. The most critical annual goals were met.   |

Agencies shall be required to submit their Agency SPMS to the concerned Civil Service Commission Regional Office for approval starting June 2012.

All agencies should have a CSC-approved SPMS by January 2014. Accordingly, by January 2015, all performance based human resource movements and/or developments/interventions such as promotion, scholarship, training, rewards and incentives shall **only** be based on a CSC-approved SPMS under these guidelines.

An office/unit or individual employee, however, shall not be allowed to protest the performance ratings of other office/unit or coemployees. Ratings obtained by other office/unit or employees can only be used as basis or reference for comparison in appealing one's office or individual performance rating.
- The PMT shall decide on the appeals within one month from receipt.

Appeals lodged at any PMT shall follow the hierarchical jurisdiction of various PMTs in an agency. For example, the decision of the Provincial PMT is appealable to the Regional PMT which decision is in turn appealable to the National/Central Office PMT.

The decision of the PMT in the central office or departments may be appealed to the head of office.

d. Officials or employees who are separated from the service on the basis of Unsatisfactory or Poor performance rating can appeal their separation to the CSC or its regional office within 15 days from receipt of the order or notice of separation.

Performance measures are always tied to a goal or an objective (the target). Performance measures can be represented by single dimensional units like hours, meters, nanoseconds, dollars, number of reports, number of errors, number of CPR-

certified employees, length of time to design hardware, etc

11 The goal intended to be attained (and which is believed to be attainable)

12 Success Indicators are quantifiable measurements, agreed to beforehand, that reflect the critical success factors of an organization. They will differ depending on the organization.
